About us

The National Society of Mining, Oil and Energy (SNMPE) is an enterprise organization incorporated as a non-profit organization, formed by companies related to mining, hydrocarbons and electricity.

This organization promotes and defends market economy and competitiveness in our Sectors, which operate respecting the environment and cultural diversity.

Our mission

Production activities:

- ✓ Promote the development of mining, hydrocarbon and electricity activities, through the sustainable use of natural resources and social development, in compliance with the current legislation.
- ✓ Encourage competitiveness in these activities.
- ✓ Become the referring party and authorized opinion on topics related to the mining, hydrocarbon and electricity sectors.
- ✓ Promote the efficient development of the mining, hydrocarbon and electricity activities.
- ✓ Canalize, before the Public Authorities, the institutional interests of its Associates.
- ✓ Represent our Sectors before institutions and public and private companies.

Investment:

- ✓ Provide technical advisory to Public Authorities and public or private institutions that require it.
- ✓ Promote sustainable use of natural resources.
- ✓ Build a good reputation for the Sectors that the Organization represents.
- ✓ Promote the Sectors that the Organization represents among investors, authorities and civil society as a whole.

Education and production culture:

- ✓ Disseminate relevant, accurate, general and specialized information about the Sectors to the different interest groups.
- ✓ Contribute to the better understanding of the Sectors.
- ✓ Contribute with the country's sustainable development.

Our services

- ✓ Facilitate and coordinate agendas for dialogue with the various actors involved in the development of the mining, hydrocarbon and electricity activities.
- ✓ Disseminate the contribution made by the Sectors to the development of the country via its various activities.
- ✓ Promote private investment in our Sectors.
- ✓ Analyze and follow-up the current legislation related to the Sectors and its possible changes, and propose improvements.
- ✓ Edit publications with specialized and useful information for our associate's activities and the community in general.
 - ✓ Desde Adentro is SNMPE's institutional magazine, which provides information and analysis of the mining, hydrocarbons and electricity sectors.
 - ✓ Síntesis Noticiosa SNMPE, provides daily information about what the print media publishes about the mining, hydrocarbons and electricity sectors, information that is distributed via e-mail.
 - ✓ Mining, Hydrocarbons and Electricity Statistical Report – REM.
 - ✓ SNMPE from the Congress.
 - ✓ Monthly Statistical Bulletin - BEM.
 - ✓ Bimonthly Report on topics of interest.
 - ✓ Website.
 - ✓ Other publications produced by SNMPE.
- ✓ Develop training and update courses for the personnel of our associates and other audiences.
- ✓ Organize conferences, seminars and forums to allow discussion and exchange of ideas on the development of our Sectors.
- ✓ Develop special projects aimed at improving the education in our country, as well as promoting decentralization, among others.
- ✓ Provide support and coordination of specific activities required by our Associates.

Code of Conduct

The member companies, aware that minerals, petroleum and energy are essential for the development and well being of humanity, declare that their exploitation must be carried out abiding by the following code of conduct:

1. Exploration, extraction, exploitation, production, transformation, transport, distribution and/or use of natural resources linked to our activities will be conducted in full compliance with the legislation in force in this country.
2. Responsibility and efficiency are an essential and constant norm in the process of exploitation and utilization of natural resources.
3. The generation of value for shareholders, employees, clients and society in general takes place within the framework of a social market economy.
4. The harmonization of the legitimate business undertakings and the products it develops, seeks to contribute toward a reasonable living standard and the sustainable development of society.
5. Achievement of business objectives should be sought while acting and competing with transparency and fairness.
6. Occupational health and safety constitute an essential goal in the management of all our operations.
7. A central objective of our business activity is to promote and apply environmental protection practices as well as an efficient utilization of natural resources, encouraging the use of effective technologies that contribute to protect and conserve the flora, fauna and ecosystems, in addition to preventing any negative contingencies.
8. We aim to respect ethnic diversity (cultures, customs, principles and values of the societies with which we interact), promoting dialogue and the participation of all stakeholder groups in local development projects.
9. Our productive activities and business management are ruled by corporate governance, transparency and anti-corruption guidelines.
